To Whom It May Concern:

It is my pleasure to recommend Global Student to you.

Global Student initiated a relationship with ACG in 2001. In the past 16 years, we have witnessed its development and progress from that of a small new agency to a dominant one in the Middle Eastern market.

There are two key factors that contribute to Global Student's success as an agency.

Firstly, Global Student has an excellent team of staff. They are closely familiar with the education system of New Zealand. They are able to provide students with accurate information about schools and academic programmes. The whole team also keeps a close eye on the domestic and overseas markets in terms of trends and developments.

The other key factor is the company culture. Global Student is committed to a strong customer service concept. As a result, staff members respond to customer needs and expectations responsibly and professionally.

I would recommend Global Student as a trustworthy business partner because of the high levels of student support offered and the performance levels of the agency.

Global Student is currently one of ACG's most productive partners in terms of Saudi Arabian students recruited for the Group. I have no hesitation in recommending Global Student to any educational provider.

Please feel free to contact me, should you require any further information:
